# Prosecco Rose' Spumante Extra Dry

Prosecco Rosè is a pink sparkling wine obtained from Glera grape and Pinot Nero with Charmat method.

## ORGANOLEPTIC CHARACTERISTIC

Soft powder pink color with fine bubbles that enhance its brightness.  
On the nose, elegant floral aromas of rose petal, peony and small red berry fruits such as raspberry, followed by cotton candy.  
Sweetness varies from very dry to medium-sweet. Their rich fruitiness is typically balanced with a crisp acidity; enveloping and delicate, refined in balance and in the fruity and sapid-mineral olfactory returns that chase a never aggressive freshness.

## SERVING SUGGESTION

Perfect as an aperitif but can also be combined with the whole meal, especially with fish crudités.  
Ideal for toasts, socialising and buffets, or to accompany shellfish, fish and vegetable dishes.
